A line chart titled 'Sum of Sales by Month'. The vertical axis (Y-axis) is labeled 'Sum of Sales' and ranges from 100K to 300K in increments of 50K. The horizontal axis (X-axis) is labeled 'Month' and lists the twelve months of the year: January, February, March, April, May, June, July, August, September, October, November, and December. The data is represented by a solid blue line. The sales start at approximately 140K in January, drop to a low of about 120K in February, then rise to a peak of nearly 240K in March. After a dip in April, sales rise again to a peak in September at approximately 265K. There is a significant drop in October, followed by a sharp increase in November to about 275K, and a final decrease in December to around 255K.

Month	Sum of Sales (K)
January	140
February	120
March	238
April	155
May	175
June	148
July	148
August	150
September	265
October	178
November	275
December	255
